Professional Summary

Clinical Research Associate with 2.7 years of experience in clinical trial monitoring, regulatory compliance, and data management across multicenter studies. Completed 20+ site monitoring visits (SIV, RMV, COV) and managed 8+ concurrent clinical trials without a single protocol deviation. Supported 6 notified body audits, including TUV Rheinland, CDSCO, BSI, HT CERT, and DQS Med, with consistently strong audit outcomes. Well-versed in ICH-GCP, EU MDR, and CDSCO requirements, CRF/eCRF design, SDV, and query resolution, with working knowledge of RedCap and Veeva Vault. Strong track record in CTRI registration, IRB/EC submissions, audit-ready documentation, scientific writing, and cross-functional site coordination.

Core Competencies

Clinical Monitoring: Site Selection & Initiation (SIV), Routine Monitoring (RMV), Close-Out Visits (COV), Protocol Deviation Management, Patient Safety Oversight

Regulatory & Compliance: ICH-GCP, EU MDR, CDSCO, CTRI Registration, IRB/EC Submissions, Notified Body Audit & Inspection Readiness

Data Management Systems: CRF/eCRF Design, EDC Data Entry & SDV, Query Management & Resolution, RedCap (Basic), Veeva Vault (Basic)

Documentation & Reporting: CSR, Interim & PMCF Reports, ICFs, TMF Documentation, Scientific Writing & Literature Reviews

Professional Experience

RA Executive – Clinical Research Associate Function

Aug 2023 – Mar 2026

Aurolab, Madurai, India

Clinical Monitoring & Site Management

- Completed 20+ site monitoring visits (SIV, RMV, COV) across multicenter ophthalmic device trials, ensuring protocol adherence, patient safety, and data integrity.
- Managed 8+ concurrent clinical trials without a single protocol deviation, through proactive risk identification and close coordination with sites and sponsors.
- Conducted site selection and ongoing compliance monitoring, with proactive deviation management throughout the trial lifecycle.

Clinical Data Management

- Developed and reviewed CRF/eCRF templates aligned with protocols, SAPs, and ICH-GCP/EU MDR requirements; performed EDC data entry and source-to-CRF verification (SDV).
- Managed end-to-end query lifecycle, identifying discrepancies and collaborating with sites and sponsors for timely resolution.
- Working knowledge of RedCap and Veeva Vault for electronic data capture and clinical trial document management.

Regulatory Affairs & Audit Readiness

- Successfully supported 6 notified body audits, including TUV Rheinland, CDSCO, BSI, HTCERT, and DQS Med, by maintaining complete, GCP-compliant trial master file (TMF) documentation.
- Coordinated CTRI registrations, IRB/Ethics Committee submissions, site agreements, and investigator equipment training in compliance with CDSCO guidelines.
- Reviewed protocols, ICFs, CSRs, interim reports, and PMCF reports for regulatory submissions and country-level registrations.

Scientific Writing & Cross-Functional Coordination

- Prepared narrative summaries and literature reviews, and contributed to peer-reviewed publications.
- Monitored study progress and payment milestones, and coordinated ancillary supply logistics including transportation and storage support.

Education

Bachelor of Pharmacy (B.Pharm) – PSG College of Pharmacy, Coimbatore

2018 – 2022

Publication: *Molecular Docking & Dynamic Studies of Phytoprinciples of Clausena anisata – Protease Inhibitory Effects on SARS-CoV-1 & SARS-CoV-2*

Certifications & Training

Certificate Course in Clinical Research (CCCR) • Regulatory Affairs in Pharmaceuticals & Clinical Trials • Design & Interpretation of Clinical Trials • Drug Discovery and Development • Audits & Inspections in Clinical Trials
